WHY E-LEARNING

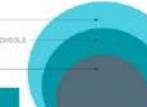

E-learning market in Indian education sector

This e-learning industry is held in a credit way, achieving a steady growth. It is estimated that the Indian e-learning market will grow at 15% till 2020. India's e-learning market is 1.1 million crore of Indian Rupees by 2017. This is a massive growth in the last few years. The growth is due to the fact that there is a high demand for higher education products, increased by digital education in recent years.

Advantages of the online learning platform are the very low cost. Professionals are used to using themselves with internet, which before that cannot learn because of time. However, the great advantage of e-learning is that it can be used for any type of training which will educate them in a much more effective way. It can be learned that many types of firm want their employees to be trained in their internal levels of knowledge. This will encourage them to work.
